Development inspection plan

SYNTHETIC INTERNAL TEST - NOT A REAL CONSTRUCTION RECORD

Project BM03-REV10-20261013. Supervisor checks the actual test image: all four colored corners and the SYNTHETIC label must be visible. Pass means this image criterion passed; it is not a statement of actual site quality.

Date: 13 October 2026. Evidence: synthetic-inspection.png. Responsibility: internal UAT supervisor.
